

Collection Anodic - Powder Coating for Metal Architecture

Collection Anodic - Powder Coating for Metal Architecture

Interpon Powder Coatings presents an exclusive range of matt and metallic effect finishes designed for Residential and Commercial Metal Architecture.

You now have an even greater selection of alternative coatings for aluminium with all the existing application benefits of powder coatings.

Interpon Collection Anodic showcases two distinct ranges:

From the Timeless: Collection Anodic Classic range features soft metallic tones with an established reputation with customers seeking alternative coatings to anodised aluminium.

To the Modern: Anodic Précis™ reflects today and tomorrow's evolution in architectural color and finish trends. Expanding the collection, Anodic Précis™ are Interpon's next generation smooth low gloss 'anodised look' powder coatings.

“

Designers, architects and builders now have an enviable choice!

”

The benefits of powder coating compared with other finishes for aluminium include:

- Easy repair of coating damage during fabrication or installation
- Batch to batch consistency
- Color freedom and flexibility
- Ability to coat a variety of substrates such as wood, plastic and steel
- Proven long-term resistance to weathering – with a guarantee*
- Minimal environmental impact

Custom Made Colors

Can't find the color you need?

Guaranteeing your color freedom - we aim to inspire your world of color without limitation and it is for this reason that we offer our industry leading color match service - capable of matching nearly every conceivable color from almost any source.

Interpon offers rapid service with a near perfect accuracy record, ensuring the right color for your project, fast. Custom and ex-stock colors are available in quantities as small as 20kg (coats approximately 140m²) available through our **MiniB™** and **MiniB Micro** services.

Inspiring your world of
color without limitations.

Outstanding durability and performance – Now you have a choice!

Collection Anodic is available in a range of durability standards depending on your project requirements. Giving you the freedom and flexibility where quality performance is a must.

Collection Anodic - Powder Coating for Metal Architecture

Peace of mind with a Global Warranty

Interpon Anodic Powder Coatings have been engineered to withstand the harsh Australian climate and lend themselves to the most demanding external applications for commercial projects and residential developments.

Interpon D architectural powder coatings are performance guaranteed with a full global warranty when applied to aluminium by an Interpon D Approved Applicator.

Interpon D Approved Applicators

AkzoNobel has developed the Interpon D Approved Applicator Network to support the Interpon D Global Warranty Program.

Interpon D Approved Applicators are assessed and selected on our extensive evaluation process ensuring the highest levels of service and delivery ensuring projects are completed in full and on time.

Why Specify Interpon Products?

The answer is simple; we specialise exclusively in powder coatings. As specialists we offer you:

- world class products for both commercial and residential projects
- products with outstanding durability and performance
- a strong network of qualified and approved applicators
- 10, 20 & 30 year global product performance warranties
- local sales & technical support
- the integrity of the global AkzoNobel brand
- environmentally friendly product range

Take any one of the reasons outlined above, consider it on its individual merits, and you will see that each stands up alone. Collectively they constitute a formidable argument to specify Interpon powder coatings for your next project.

“ Sustainability is at the heart of what we do. ”

Sustainability

Working Together for a Greener Future

If you're a specifier, architect or developer it's likely you've heard about Green Star, Australia's first comprehensive rating system for evaluating the environmental design and performance of Australian buildings from the GBCA.

By specifying Interpon Powder Coatings, you can accumulate Green Star points for your project, plus there's the benefit to the environment as well. It's a win-win all round.

The Customer Care Team at Interpon Powder Coatings is ready and willing to assist with your next project - contact numbers are listed below for your convenience.
